DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1- 10, 12-13, 16-26, 29, 32-34, 37-39, and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by Carr (5765252).

Carr discloses a tooth cleaning device having a main body (18) with bristles (46) and protrusions (48).

3. Claims 1 and 40-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Noe et al (6119296).

Noe et al discloses a tooth cleaning device having a main body (18) with bristles (18) with tufts (col.8, line 48)).

Claim Rejections - 35 USC § 103

Art Unit: 3727

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 11-12, 14, and 35-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carr (5765252) in view of Stelmach (6116252).

a. Carr discloses the claimed invention except for a resilient material being a string or chord which is attached. All the claimed elements were known in the prior art such as a chord or string attached to a toothbrush which provide a safety feature and one skilled in the art could have combined the elements as claimed by known methods with no change in their respective functions, and the combination would have yielded predictable results to one of ordinary skill in the art at the time the invention was made . KSR

b. Carr discloses a variety of shapes except for a approximately a square shape. The claim would have been obvious because a person of ordinary skill has good reason to pursue the known options within his or her technical grasp as matter of design choice or anticipated success leading to a product not of innovation but of ordinary common sense to yield a predictable result.

6. Claims 2 and 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carr (5765252) in view of McDevitt et al (6721987).

c. Carr discloses the claimed invention except for flavoring substance. All the claimed elements were known in the prior art such as flavoring substance which

Art Unit: 3727

provide cleaning for the mouth and one skilled in the art could have combined the elements as claimed by known methods with no change in their respective functions, and the combination would have yielded predictable results to one of ordinary skill in the art at the time the invention was made . KSR

Response to Arguments

7. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

d. The rejections have been redone with respect to dates and prior art. The arguments are moot in view of the newly applied art. Please see above rejections.
